Introduction

Busy Little Bees Nurseries provide childcare at 3 locations within the Birmingham are, Sheldon, Hall Green & Shirley.

Project Description

The owner of Busy Little Bees Nurseries contacted us initially for a survey and quotation for flooring to an entrance hallway and staircase at their Sheldon nursery. Various samples were offered to the client, an order was placed and works were carried out consisting of laying Polyflor Wood FX – a slip resistant safety vinyl, fitted with an integral covered skirting to the hallway and Lano Scal Solutions Broadloom carpet with contrasting stair nosings to the staircase.

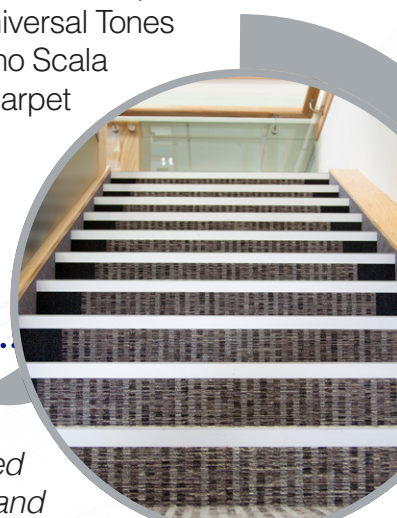

This then led on to further works at Hall Green where Polyflor Forest FX vinyl sheet

was laid to a newly built extension, and subsequently Polyflor Forest FX and JHS Universal Tones Broadloom carpet to the younger pre-school room at Shirley Nursery.

All three were completed within 4 weeks of the initial enquiry.

Products

Polyflor Forest FX vinyl sheet, Polyflor Wood FX vinyl sheet, JHS Universal Tones Broadloom carpet, Lano Scala Solutions Broadloom carpet & Quantum aluminium stair nosings.

DID YOU KNOW?

*In many commercial buildings today **stair nosing** has to be fitted by the law, or the staircase will not comply according to codes and regulations.*
