Introduction

Craegmoor is the country's leading independent provider of support for people with learning disabilities, autism, complex needs and mental health problems, as well as those with behaviours that challenge.

Project Description

Situated in Langley (near Oldbury) in the West Midlands, Alphonsus House supports people with learning disabilities.

Working closely with Craegmoor, part of the Priory Group of Companies, FLR Group have readapted a bungalow at the rear of the property to improve the health and wellbeing of the five individuals that will be supported there.

Work was carried out to the exacting requirements of the client, including the installation of:

- An assistive bathroom (complete with hoist and level access shower)
- Anti-ligature products including ThermaSkirt, a smart heating system
- LED lighting

FLR have worked to ensure that the facility is fully Equalities Act compliant, for example by widening doors for wheelchair access.

The project has been completed with the creation of a landscaped garden and rest area to improve the quality of life for all residents.

CUSTOMER TESTIMONIAL

Works were completed on time and within budget and FLR Group are to be commended for their sympathetic approach and patience whilst working in areas of great sensitivity amongst our elderly and frail residents.
