HEALTHCARE

Introduction

The Licky Hills Amore Care Home is designed to offer residential, nursing and dementia care to older people with varying levels of need. Amore Care is part of the Priory Group of Companies.

Project Description

Works included decoration to dining room, lounge and communal areas including main reception and formation of a cinema room plus installation of media equipment.

Working closely with Amore Care, it was important FLR Group took great responsibility not to disturb the residents or the day to day running of the care home.

CUSTOMER TESTIMONIAL

Fantastic job, want FLR to carry out second phase of works later in the year when funding becomes available.
